PROFESSIONAL PROFILE

Motivated Information Technology Software Development student with a strong academic record and practical experience across software development, databases, cybersecurity and IT project work. Achieved 17 distinctions across 20 completed modules, demonstrating consistent academic performance and a strong technical foundation. Experienced in building desktop, web and database applications using C#, .NET, SQL, JavaScript, Kotlin and related technologies. Brings strong leadership, communication, problem-solving and time-management skills, with a proven ability to balance demanding studies with structured endurance training.

EDUCATION

Diploma in Information Technology – Software Development | Rosebank College

In Progress | Expected 2026

- Information Security
- IT Project Management
- Data & Relational Databases
- Software Development
- Open Source Coding
- Programming
- Java
- C#
- HTML/CSS
- JavaScript
- Kotlin
- Typescript
- React Native
- Python

Dale College Boys' High School

Matriculated 2022

- High School Prefect – demonstrated leadership, responsibility and teamwork

Dale College Boys' Junior School

Primary Education Completed

TECHNICAL PROJECTS

Cybersecurity Awareness Chatbot | *C# | .NET 5 | WPF | XAML*

- Developed a GUI-based cybersecurity awareness chatbot application.
- Implemented login functionality, quizzes, task reminders and activity logging.
- Designed an interactive desktop interface using WPF and XAML.

Contract Monthly Claim System Prototype | *C# | UML | WPF | .NET Core*

- Designed UML class diagrams and system architecture.
- Built a prototype GUI supporting contractor claim workflows.
- Applied object-oriented programming principles.

Ride Sharing Database System | *SQL | Database Design*

- Designed a relational database for drivers, riders and trips.
- Implemented database constraints and data-validation rules.

Xclusive Society Online Store | *Web Development | System Design*

- Planned online-store architecture and user workflows.
- Created UML use-case diagrams and ERDs.
- Developed structured project documentation.

Client Websites & Side Projects | *Web Development*

- Created functional websites for schools and businesses.

PROFESSIONAL EXPERIENCE

Website Developer | Dale College | 2018 – 2022

- Edited and updated the school website using WordPress.
- Updated website content and pages to keep information current and well presented.
- Worked with the WordPress content management system to make website changes.
- Helped maintain the website's structure, layout and presentation.
- Supported the organisation of website information to improve accessibility for visitors.
- Developed practical experience in website content management, attention to detail and digital communication.

TECHNICAL SKILLS

Programming: C#, Kotlin, SQL, XAML, HTML, CSS, Python, Java, JavaScript, PHP, Typescript

Databases: Neon, Firebase, Supabase, PostgreSQL, MySQL/phpMyAdmin, Postegre

Development & Tools: .NET, WPF, Visual Studio 2022, Android Studio, JetBrains Rider, Visual Studio Code, Data Grip, React Native

Cloud & Platforms: Azure, AWS

Design & Engineering: Database Design, SQL, UML Modelling, Object-Oriented Programming

CERTIFICATION

Agentic AI Certified Foundations Associate — Issued September 2026 | Credential ID: 331540166AAI26OFA

ACHIEVEMENTS & ACTIVITIES

- High School Prefect (Leadership Position)
- 17 distinctions across 20 completed Diploma modules
- SETA Bursary recipient supporting final-year Diploma studies
- Triathlon athlete in training for IRONMAN 70.3 Mossel Bay
- Structured training across swimming, cycling, running and strength training

CORE STRENGTHS

• Leadership & Teamwork • Communication • Problem Solving • Time Management • Adaptability

INTERESTS

• Software Development • Cybersecurity • Technology Innovation • Fitness & Personal Development • Software Engineering
